COMPANY OVERVIEW

Bhuiyan Enterprise is an independent, one-stop industrial supplier. We have one goal that is to provide highest level of service and support. We are specialized in providing world leading Original Equipment Manufacturer (OEM) products.

We proudly supply spare parts and offers installation, commissioning and maintenance to new or existing system. Whatever your requirement, we have the knowledge to offer you the right solution. Our reliable supply chain and collaboration with manufacturers across the world, ensures goods are the highest of quality and fully aligned with customer requirements.

As a machinery importer of all types, we are committed to providing our customers with the most cutting-edge solutions to enhance their business operations. We have access to a wide range of products from leading manufacturers around the world, which gives us the ability to offer our customers a broad selection of equipment to choose from, ensuring that they find the perfect solution for their needs.

One of the key factors that sets Bhuiyan Enterprise apart from other suppliers is that we only work with the most reputable manufacturers in the industry, certifying that our customers receive high-quality, reliable machinery that meets their specific requirements.

Whether it be industrial automation solutions or SCADA solutions, instrumentation or electro-mechanical, our extensive range of products caters to a broad spectrum of needs in various industries. At Bhuiyan Enterprise, we understand the worth of quality and reliability, and we make it our priority while delivering products or services of testing and installation to meet the highest standards of excellence.

Our team of experts' works closely with our customers to understand their unique needs and provide customized solutions that will help streamline their operations and increase efficiency.

CEO's THOUGHTS

At Bhuiyan Enterprise, our commitment to excellence, integrity, and customer satisfaction has driven our journey over the past decade. We take pride in being a trusted partner in industrial procurement, offering access to over 10 million SKUs and sourcing even the most hard-to-find components.

Guided by our core values—loyalty, honesty, transparency, and mutual respect—we aim to redefine customer service and set new industry standards. With a global network and a customer-centric approach, we are dedicated to delivering innovative solutions and sustainable growth.

Thank you for your trust and support as we continue to build a brighter future together.

- ENGR. NASIR UDDIN BHUIYAN
FOUNDER & OWNER

OUR EXPERTISE

Process Instrumentation Products:

Comprehensive solutions including flowmeters, pressure and temperature sensors and transmitters, level sensors and transmitters, liquid analysis products, tank gauging systems (including TankVision software), LPG flowmeters, and LPG volume meters.

Inline & Portable Instruments:

Advanced measurement and detection tools such as sensors, transmitters, RPM and vibration meters, gas leak detectors, thermal scanners, and flue gas analyzers.

Automation Products & Services:

Complete solutions with PLC, HMI, and SCADA systems, supported by our esteemed service offerings.

Mechanical & Electromechanical Products:

High-quality valves, actuators, positioners, and control valves tailored to meet diverse industrial needs.

Motors & Drives:

A wide range of AC and DC drives, servo motors, gearboxes, encoders, and motion-related products to optimize performance.

Weighing Systems:

Precision load cells, amplifiers, junction boxes, and process weighing indicators with professional calibration services.

Low Voltage Items:

Reliable circuit breakers, motor controllers (MC), relays, ACBs, and VCBs for electrical systems.

OUR SERVICES

Bhuiyan Enterprise mainly works as a goods provider with their local and foreign network. We are not only limited to sourcing and supply; our other scopes are:

- Automation
- Maintenance
- Mechanical Customization
- Installation and Commissioning
- Instrumentation Service
- Project Works
- Logistics and Freight-Forwarding
- Export and Import

At Inventure, we deliver safe, reliable, and tailored logistics solutions, ensuring your unique freight needs are met with care and expertise. With a dedicated team and personalized attention, we handle every shipment with precision, whether regional or global.

MISSION

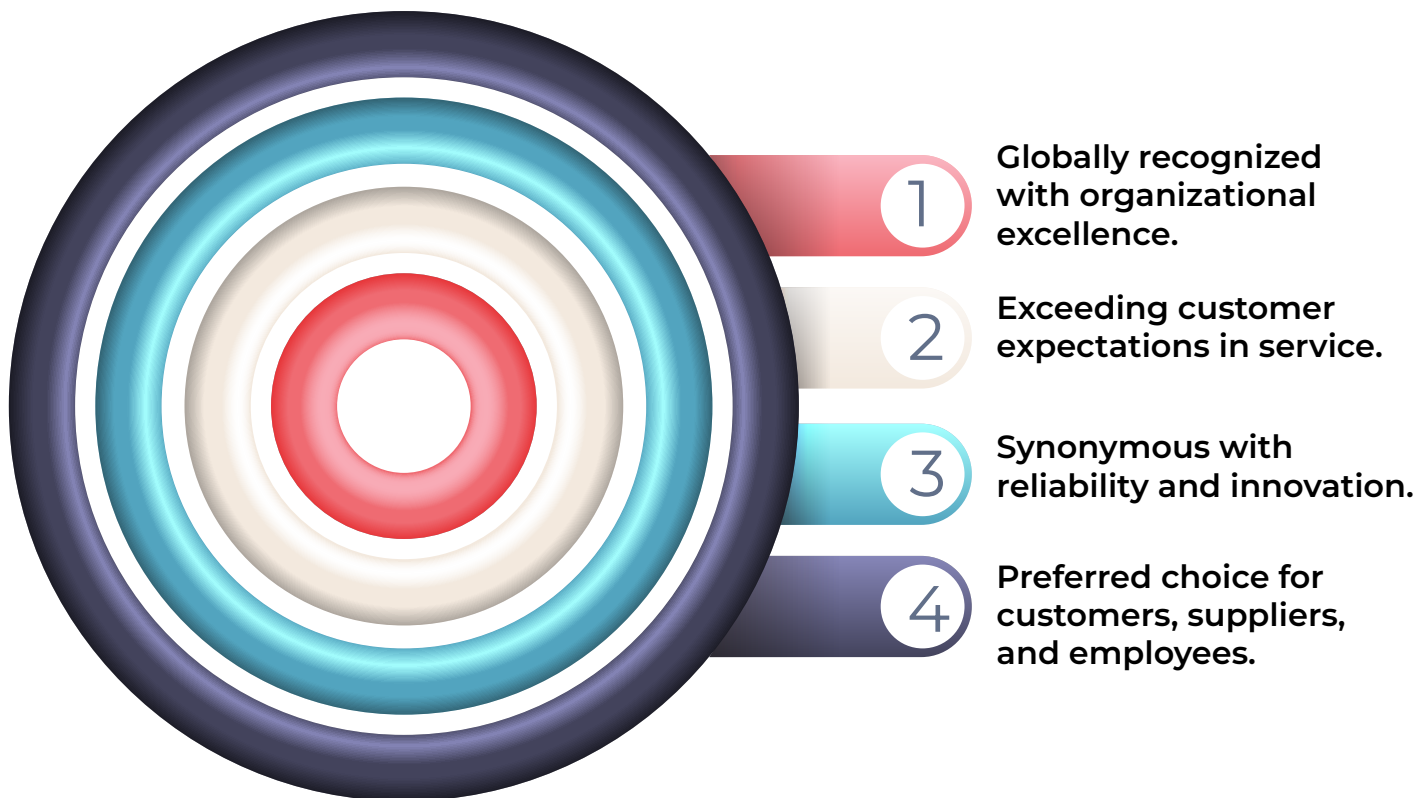

- Perceiving customer needs at utmost level by providing them flexibility in sourcing, competitive prices, on-time deliveries and customized solutions for unique needs.
- Ensuring attentive, effective and proactive customer service and personalized attention to customers.
- Continually building our skills and knowledge to meet the growing and diverse needs of customers.
- Sustaining our reputation as a reliable, customer-oriented, dynamic player in the market.
- Achieving profitable growth, operational and organizational excellence without compromising from our values and business ethics.

VISION

- Being a globally recognized company established world-wide with an excellence in organizational structure.
- Re-defining the standards of 'customer service' by exceeding customer expectations.
- Being admired for our business values and ethics.
- Keeping our name synonymous with reliability, customer satisfaction and innovation.
- Being the "preferred choice" both for customers, suppliers and employees.
- Bringing inspiration and being a model for companies who are willing to reach their dreams.

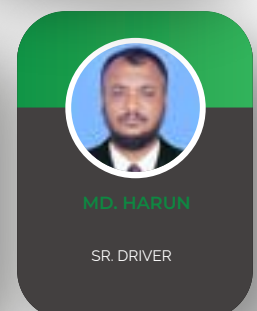

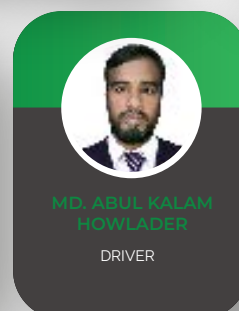

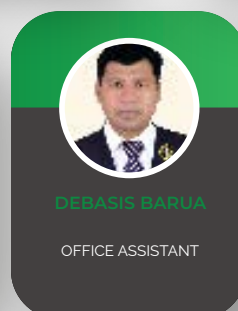

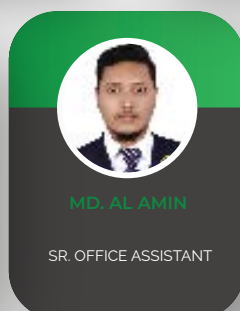

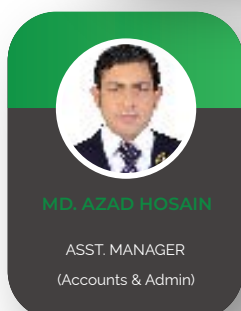

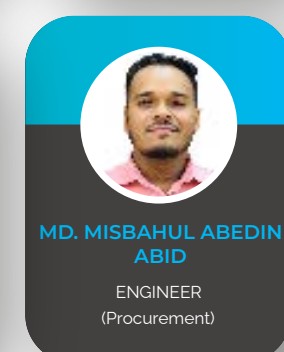

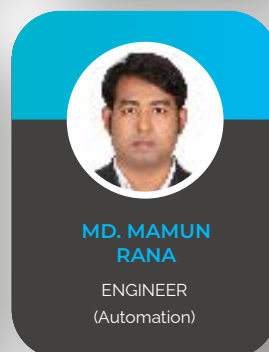

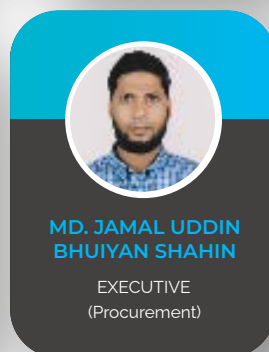

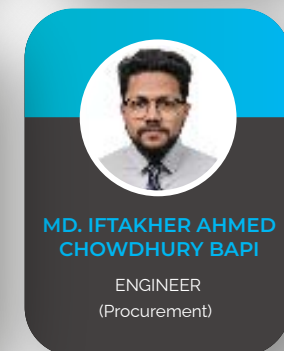

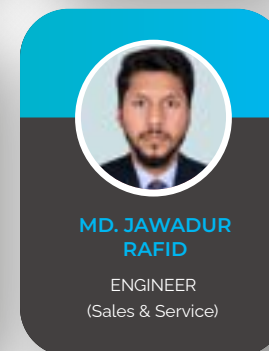

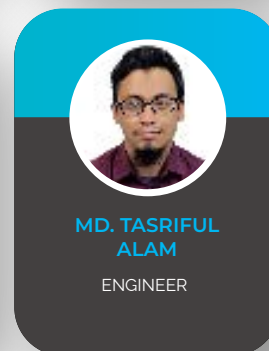

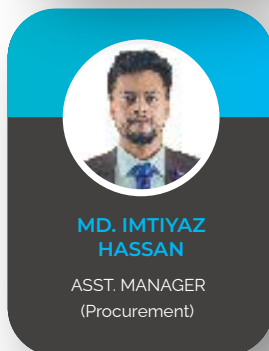

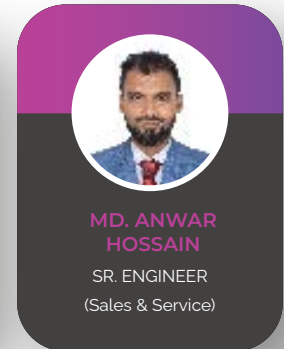

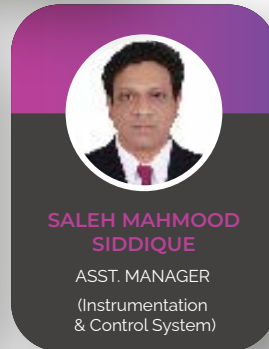

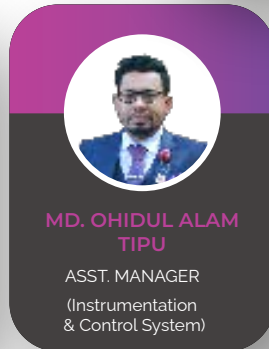

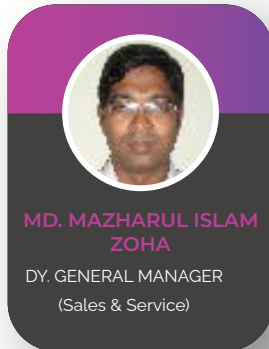

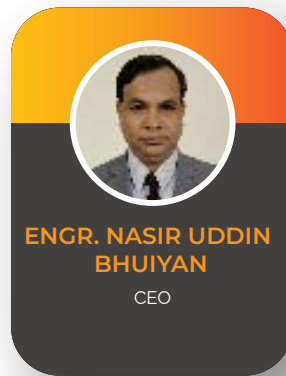

www.bhuiyanenterprise.com

Our vision is to be a globally recognized company, celebrated for excellence in operations and exceptional customer service. We aim to set standards of reliability, innovation, and strong ethical values, becoming the preferred choice for customers, suppliers, and employees while inspiring others to achieve success.

MEET OUR TEAM

WHY CHOOSE US

DIVERSE RANGE OF PRODUCTS

We provide extensive range of advanced product and system varying Servo Motor, Frequency Inverter, Programmable Logic Controllers, Touch Screen and many more for our valued customers.

01

02

SATISFIED CLIENTELE ACROSS INDUSTRY

Our large clientele base span across diverse industry from Oil & Gas, Petrochemical, Marine Offshore, Building Automation, Manufacturing and Factory Automation Industries.

03

QUALITY ASSURANCE

Our experienced team of engineers helps customer to find the right product that suits their requirement to ensure complete quality assurance from purchase to delivery of the product.

04

TRUSTED BRANDS

Schneider, Hitachi, Carlo Gavazzi, Nord, Omron, Telemecanique, Merlin Gerin, Modicon, OsiSense, all the leading automation Original Equipment Manufacturers (OEMs).

TIMELY DELIVERY & AFTER-SALE SUPPORT

We help our customers during initial consultation, providing product specifications, system configuration and product recommendation, timely delivery of product to after

ONE STOP AUTOMATION SOLUTION

Schneider, Hitachi, Carlo Gavazzi, Nord, Omron, Telemecanique, Merlin Gerin, Modicon, OsiSense, all the leading automation Original Equipment Manufacturers (OEMs).

We offer a diverse range of advanced products and systems, including Servo Motors, Frequency Inverters, Programmable Logic Controllers, and Touch Screens, tailored to meet the specific needs of our valued customers. Our experienced engineering team ensures quality assurance throughout the process, from product selection to delivery.

We pride ourselves on timely delivery and reliable after-sales support, providing assistance from initial consultation to system configuration and product recommendations. Our clientele spans multiple industries, including Oil & Gas, Petrochemical, Marine Offshore, Building Automation, and Factory Automation.

With trusted brands like Schneider, Hitachi, Omron, and many more, we deliver high-quality automation solutions from leading OEMs, making us your one-stop solution for all automation needs.

OUR VALUES

At the heart of our company lies a steadfast commitment to values that define who we are and how we operate. These principles guide our decisions, shape our culture, and ensure enduring success in all our endeavors:

Loyalty: We are dedicated to fostering long-lasting relationships with our clients, partners, and employees, built on trust and mutual commitment.

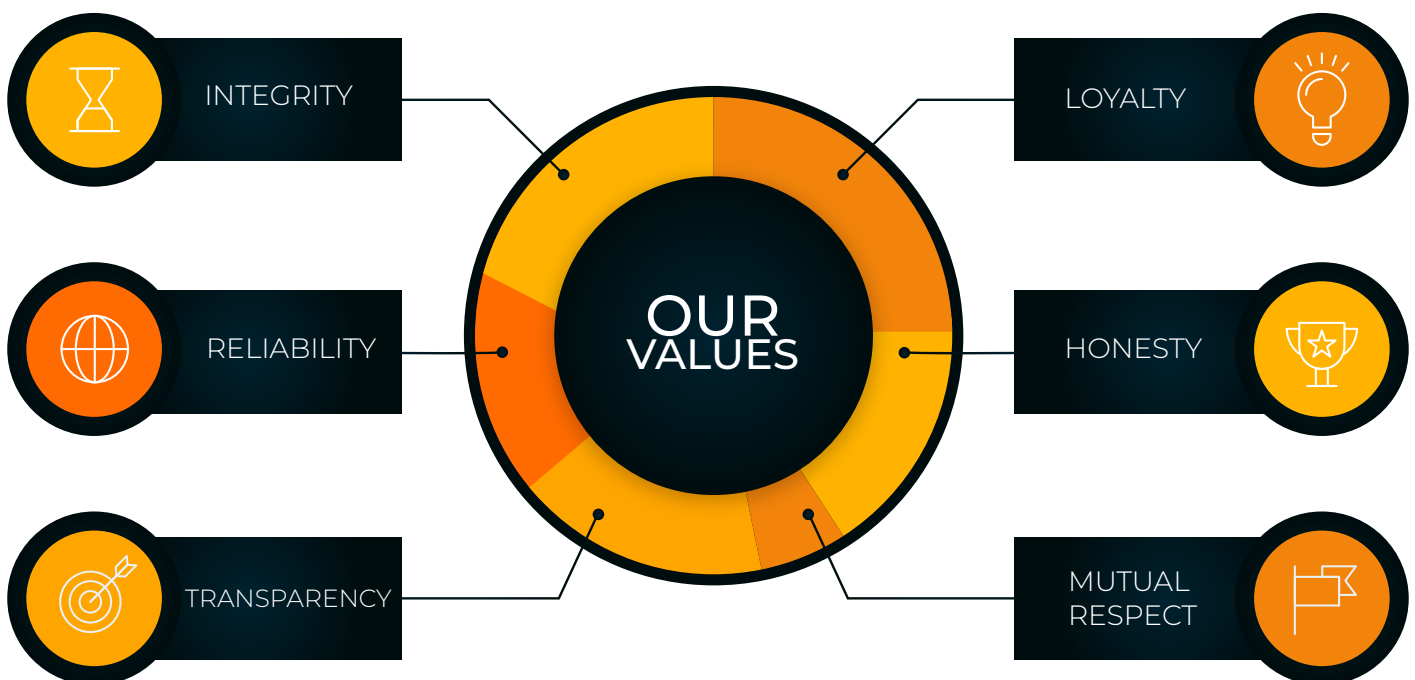

Honesty: Integrity and truthfulness are at the core of our actions, ensuring open and ethical communication in every interaction.

Integrity: We adhere to the highest moral standards, standing firm in our principles while delivering on our promises.

Reliability: Our clients and partners can depend on us for consistent performance, quality outcomes, and unwavering support.

Transparency: We prioritize openness in our processes and decisions, cultivating trust through clear and honest practices.

Mutual Respect: We value diversity, collaboration, and respect for every individual, creating an inclusive and supportive environment.

OUR FIELD

Bhuiyan Enterprise served customers from almost every major industry vertical. This means we have readily available domain expertise that helps us to understand the peculiar needs of a specific industry. This reduces your time in sourcing the right products and solutions. Our consultants work with you throughout the project lifecycle and beyond.

We are providing goods to the following categorised industries:

OUR FIELD

HEALTHCARE

LUBRICANT

PACKAGING

TEXTILE

OIL & GAS

TOBACCO

STEEL MILLS

PHARMACEUTICALS

INFORMATION TECHNOLOGY

POWER PLANT

INDUSTRY ANALYSIS

The global OEM spare parts and industrial procurement industry is a multibillion-dollar market, driven by the need for maintenance, repair, and operations (MRO) across manufacturing, automotive, aerospace, and electronics sectors. In Bangladesh, the engineering products sector benefits from the country's position as a manufacturing hub, particularly in garments and light engineering, though it remains heavily reliant on imports for high tech components. The rise of automation and Industry 4.0 technologies is reshaping the industry, increasing demand for precision parts and integrated solutions.

Bhuiyan Enterprise competes with local distributors as well as international giants like Digi Key, Mouser Electronics, and regional players in Asia. Its niche in sourcing hard-to-find and obsolete components gives it an edge in a market where, downtime costs industries millions. The industrial procurement sector in Bangladesh is experiencing significant growth due to the increasing demand for engineering products, automation solutions, and manufacturing equipment. The country's industrial sector contributes around 35% to its GDP, with manufacturing, energy, and infrastructure development playing a major role.

Key trends shaping the industry include:

- **Automation & Digital Transformation:**

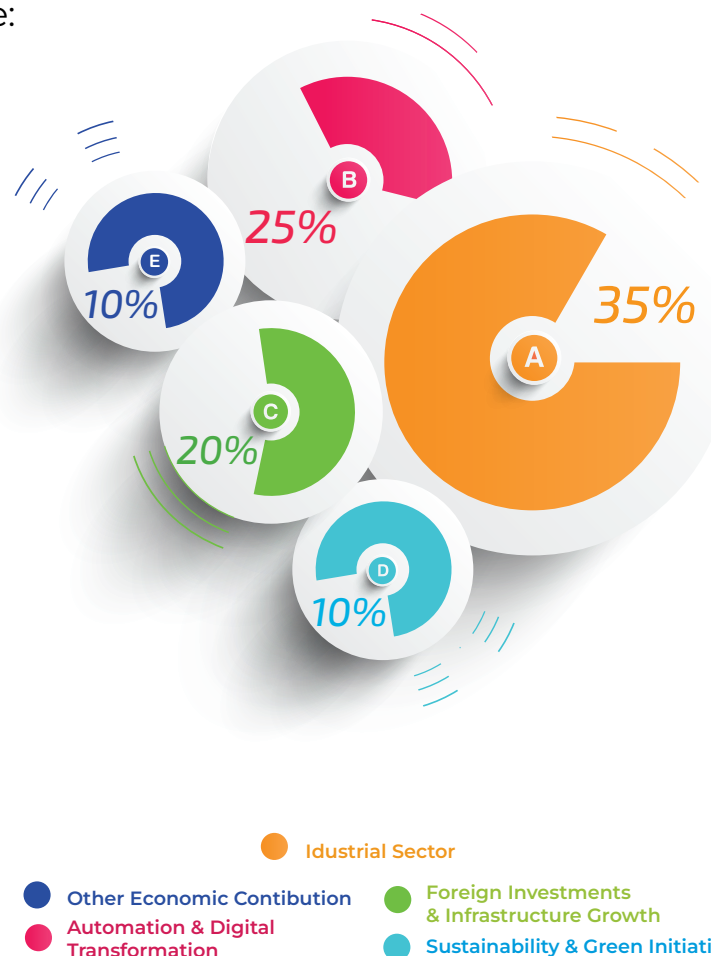

Companies are increasingly adopting automation, robotics, and smart manufacturing techniques, leading to a surge in demand for industrial spare parts and automation services.

- **Foreign Investments & Infrastructure Growth:**

Bangladesh has seen a rise in foreign investments in energy, construction, and manufacturing sectors, fueling demand for reliable industrial suppliers.

- **Sustainability & Green Initiatives:**

There is a growing need for energy-efficient equipment and environmentally friendly industrial solutions.

Bhuiyan Enterprise, with its strong procurement capabilities and extensive global network, is well positioned to capitalize on these industry trends.

TECHNICAL ANALYSIS

Bhuiyan Enterprise specializes in sourcing, supplying, and providing technical support for various engineering components. The company offers solutions for complex industrial problems, particularly in the areas of:

- **Hard to Find & Obsolete Parts:** Sourcing discontinued or hard to find components, ensuring operational continuity for clients.
- **Foreign Investments & Infrastructure Growth:** Providing solutions in automation control, industrial maintenance, and instrumentation.
- **Customization & Engineering Support:** Offering mechanical customization and system integration services.
- **Installation & Commissioning:** Ensuring seamless deployment of procured components within operational systems.

From a technical perspective, Bhuiyan Enterprise's operations hinge on its ability to efficiently source and deliver complex engineering components. Its expertise in locating hard to find electronic components and long lead time parts suggests a robust supplier database and skilled sourcing team. The company's emphasis on automation, instrumentation, and mechanical customization indicates technical proficiency in integrating products into client systems, a key differentiator in industrial procurement.

MARKET OVERVIEW

Bhuiyan Enterprise operates in the industrial procurement and engineering products market, with a focus on supplying specialized engineering components, OEM spare parts, and related services. Bangladesh's industrial sector has been growing steadily, driven by rapid urbanization, infrastructure development, and an expanding manufacturing base, particularly in textiles, electronics, and machinery. The demand for engineering products and spare parts in Bangladesh is fueled by industries such as construction, manufacturing, automation, and logistics, which rely heavily on imported components due to limited local production capacity.

Globally, the market for OEM spare parts and industrial procurement is highly competitive, with key players concentrated in industrialized nations like the USA, Germany, Japan, and China. Bhuiyan Enterprise's presence in Dhaka and Chattogram, two industrial hubs, positions it well to serve local demand, while its international buying houses in countries like Singapore, India, and the USA give it a foothold in the global supply chain. The company's ability to source over 10 million SKUs, including hard to find electronic components and obsolete parts, taps into a niche yet growing segment of the market where reliability and speed are critical. Rising automation trends, coupled with the increasing complexity of industrial machinery, suggest a robust demand outlook for such services over the next decade.

AUTHORIZED AGENTS

Marden Edwards, established in 1961 and headquartered in Wimborne, UK, is a global leader in the design and manufacture of high-quality packaging machinery. With over six decades of expertise, they specialize in overwrapping, shrink-wrapping, carton wrapping, banding, and custom packaging solutions. Serving diverse industries like food, pharmaceuticals, cosmetics, and tobacco, Marden Edwards has delivered over 10,000 systems to more than 150 countries. Known for their innovative designs, durability, and efficiency, their machines are trusted worldwide, with many operating reliably for decades.

Beyond product excellence, Marden Edwards is deeply committed to sustainability and operational efficiency. Their solutions are designed to reduce material usage while maintaining product integrity and visual appeal. Advanced coding and tracking systems ensure compliance and traceability for highly regulated industries.

AUTHORIZED AGENTS

Established in 1906 and headquartered in Denmark, Nilfisk is a global leader in professional cleaning equipment and solutions. With over a century of expertise, Nilfisk is known for its high-performance, durable, and innovative cleaning technologies. Serving industries such as healthcare, hospitality, manufacturing, and retail, Nilfisk operates in more than 100 countries and is committed to delivering exceptional quality and sustainability in its products.

Nilfisk's extensive product range includes vacuum cleaners for industrial, commercial, and residential use, floor cleaning machines like scrubbers, sweepers, and polishers, as well as powerful pressure washers and industrial cleaning systems. Designed for efficiency and reliability, their solutions help reduce water and energy consumption while achieving superior cleaning results, making Nilfisk a trusted partner in cleaning excellence worldwide.

AUTHORIZED AGENTS

Established in 1995 in Singapore, MODU System is a global leader in modular conveyor systems and industrial automation. Serving industries like food & packaging, electronics, and automotive, MODU provides flexible, innovative solutions that boost efficiency and sustainability. With manufacturing in Malaysia and operations in over 100 countries, their systems are trusted worldwide for optimizing material handling and assembly processes.

MODU offers modular conveyors, robotic automation, and manufacturing solutions tailored to various industries. Their product lineup includes sushi conveyors, food delivery robots, and Industrial IoT solutions like MODU Connect. Committed to sustainability, MODU uses recyclable materials and modular designs to extend product life while reducing environmental impact.

AUTHORIZED AGENTS

Since 1901, SIKA have been developing and producing high-quality industrial measurement and calibration solutions in Germany and have been offering a wide range of standardized and customized products in the fields of temperature, pressure, and flow measurement for over 120 years. Their product portfolio ranges from classic machine thermometers and turbine flow sensors to high-precision temperature calibrators.

SIKA is the inventors of the machine thermometer and set industry standards with innovations in areas such as flow measurement and temperature calibration. Their sensors and calibration devices are installed or used by leading global device manufacturers and can be found in the products or production of numerous market leaders in a wide range of industries, such as heating, ventilation and air conditioning technology, shipbuilding, automotive and commercial vehicle construction, and industrial engineering.

AUTHORIZED AGENTS

Founded in 2002 and based in Guangzhou, China, GBPI is a leading manufacturer of packaging material testing instruments and equipment. With over 20 years of expertise, the company serves industries such as food, pharmaceuticals, cosmetics, and packaging, providing innovative solutions for quality control and regulatory compliance. GBPI's commitment to delivering precision and reliability has established them as a trusted partner for packaging testing worldwide.

GBPI offers a diverse range of testing equipment, including barrier and permeation testers, physical property testers, environmental test equipment, and packaging machines. Their products ensure product integrity, safety, and compliance with industry standards. With a focus on sustainability and cutting-edge technology, GBPI continues to meet the evolving needs of the packaging industry, providing high-quality solutions for effective product testing and performance validation.

AUTHORIZED AGENTS

Since 2019, Bhuiyan Enterprise has been honored to serve as the official representative of Bhargab Engineering Works in Bangladesh — one of the world's most respected manufacturers of sophisticated Tea Blending Drums and Cleaning Machines.

Bhargab Engineering Works has been a trusted name in the global tea machinery industry since the early 1970s. Over the decades, they have developed a reputation for engineering excellence, precision manufacturing, and continuous innovation in the tea processing sector. Today, their state-of-the-art blending systems are operating in over 82 renowned tea companies across Asia, Africa, and Europe

www.bhuiyanenterprise.com

AUTHORIZED AGENTS

Founded over 200 years ago and headquartered in France, Fives Group is a global leader in industrial engineering, specializing in designing and supplying machines, process equipment, and production lines for various industries. With expertise across aerospace, aluminum, automotive, cement, energy, glass, logistics, oil & gas, steel, and sugar sectors, Fives delivers cutting-edge technologies that optimize industrial performance. The company operates in nearly 25 countries and employs over 8,500 people, committed to advancing operational efficiency and sustainability.

Fives offers a wide range of products and services, including high-precision machines for material removal, grinding, and ultra-precision machining, as well as process technologies for industries such as aluminum, cement, and energy. Their solutions also include smart automation systems, digital technologies, and services like maintenance, air pollution control, and additive manufacturing.

TEA BAG AND PACKAGING MACHINE SPARE PARTS

Tea & Coffee Filter Papers

Bhuiyan Enterprise provides all types of tea bag packaging materials and its OEM machine's spare parts. The fibers we select are 5-10 times stronger, which when coupled with our unique methods in production, permit combinations of properties that are normally not available in conventional papers such as its low weight, high porosity, firm and smooth folding, heat-sealed ability and great strength and dimensional stability, both in the wet and dry state

Tea Bag Thread

We provide 100% natural and environmentally friendly product with a high efficiency in the thread making process, allowing the product to be supplied as a cost-effective solution.

- Ideal running properties for high productivity and problem-free operation of tea bag packing machines
- Traditional or organic materials of consistent high quality
- Thread structure optimally adapted to the particular tea bag packing machine

www.bhuiyanenterprise.com

Tea Bag Staple Wire

Providing the very best the industry has to offer to their clientele, alu wire tea bag staple wire was produced at the highest quality, meeting the high standards of packing machines in the industry.

Meeting the strictest standards of packagers and machine manufacturers, we can customize your wire requirements according to your specific application by providing various alloys, different diameters, multiple tempers and spool sizes.

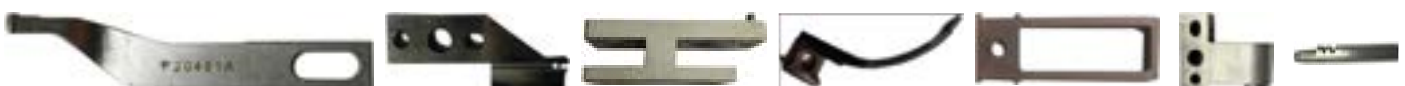

BOPP Film

BOPP film is used in vast range of applications comprising packaging, labeling and lamination. BOPP Film is used as an alternative for polythene, to provide a rich look to products. It is used for a variety of items such as Tea Inner Cartons, Printing Purposes etc.

Tea Bag Machine Spares

We can find you all kind of electrical and mechanical Tea Bag Packaging Machine spare parts. Our scope of supply includes but not limited to spare Parts for Teabag Packaging Machines such as IMA (C21, C24, C27, C28), Tea Bag Machinery Spare Parts, Teepack (Constanta, Perfecta), etc

Remarkable Accomplished Projects

Project: Energy Monitoring System

Client: Japan Tobacco International

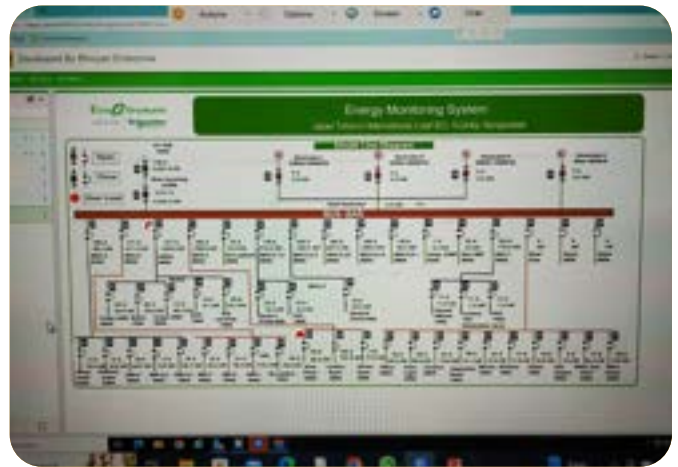

Date: 4/9/2024

We designed and implemented an advanced energy monitoring system integrated with SCADA. The system allowed real-time data collection, analysis, and control, providing full visibility over energy consumption patterns. This system supervises over 54 Energy meters and 9 Flow meters. System continuously monitors Energy consumption all over the plant and can generate report for daily consumptions and power activity

Results:

- Enhanced energy efficiency and cost savings
- Real-time system alerts and performance tracking
- Improved decision-making through data analytics

www.bhuiyanenterprise.com

Remarkable Accomplished Projects

Project: Installation and commissioning of the Marden Edward's overwrapping machine within the Tea section.

Client: Bashundhara Food & Beverage Ltd.

Date: 22/06/2023

We provided and installed a state-of-the-art overwrapping machine in the tea production section. The setup was optimized for product size and packaging volume, ensuring fast and precise operation. Bhuiyan Enterprise service team successfully completed the installation and commissioning process of the Marden Edwards Overwrapping machine within the tea section of Bashundhara Food & Beverage Industries Ltd.

Results:

- Streamlined packaging with reduced error rates
- Increased output capacity
- Improved product presentation and shelf-readiness

Remarkable Accomplished Projects

Project: Blending drum supply, full system installation & commissioning

Client: Bashundhara Multi Food Products Ltd. (Bashundhara Tea)

Date: 27/09/2023

We supplied and installed a custom-engineered blending drum tailored to the client's production needs. The installation was completed with precise alignment, rigorous safety standards, and minimal disruption to ongoing operations.

Results:

- Increased production efficiency and consistency
- Seamless integration with existing systems
- On-time delivery and commissioning

Conclusion

Bhuiyan Enterprise has firmly established itself as a leading force in the industrial supply and automation landscape of Bangladesh. With an unwavering commitment to quality, innovation, and customer satisfaction, the company has grown into a trusted partner for businesses across a wide spectrum of industries including oil & gas, petrochemical, marine offshore, building automation, and factory automation.

At the heart of Bhuiyan Enterprise's success lies a strong dedication to sourcing and delivering Original Equipment Manufacturer (OEM) products from globally renowned brands such as Schneider Electric, Omron, Hitachi, Carlo Gavazzi, Nord, and others. This ensures that clients always receive top-tier equipment and cutting-edge technology tailored to meet the complex demands of modern industrial operations.

What sets Bhuiyan Enterprise apart is not just the breadth of its product portfolio, but also the depth of its services. From consulting and supplying to installation, commissioning, and ongoing maintenance, the company offers end-to-end solutions that drive operational excellence and long-term value for its clients. Their skilled team of professionals brings years of technical expertise and a client-centric approach to every project, ensuring seamless execution and support.

Moreover, Bhuiyan Enterprise is not only focused on industrial automation but is also making strides in contributing to healthier living through its range of water purification systems available via its online store. This diversification reflects the company's commitment to sustainable development and improving lives both in the industrial and residential sectors.

Driven by a clear vision, strong values, and a future-forward mindset, Bhuiyan Enterprise continues to evolve with the dynamic needs of the industry. It is more than just a supplier—it is a strategic ally, a problem solver, and a catalyst for progress. As the company moves forward, it remains dedicated to building lasting relationships, embracing innovation, and upholding the highest standards of excellence in everything it does.
